Absent

Marco Carrer — Eurotech
Anita Bunk — Bosch (marketing committee)
Frederica Maion — Eurotech (marketing committee)
Jens Reimann — Red Hat
Lis Strenger — Red Hat (marketing committee)

1. Adopt the minutes of the November 22, 2021 call

The committee approved the minutes unanimously.

2. 2022 speaking and sponsorship updates

Frédéric Desbiens informed the committee that some of the in-person conferences in which the working group intended to participate have been rescheduled. Bosch ConnectedWorld moved from February to November, while Embedded World shifted from March to June. No events have been cancelled

There was a follow-up conversation about Hannover Messe. One of the steering committee members will have a booth at the exposition, and the Eclipse IoT WG could participate.

3. Internship program

Frédéric Desbiens asked the delegates for an update about their intentions regarding the internship program. After discussion, it seems there are no firm commitments yet. Frédéric reminded the committee that the Foundation would suspend the program if no funding is available. Funding needs to be confirmed by the end of April since the University of Ottawa schedules student interviews in May for the Fall 2022 interships.
