

IoT Steering Committee Minutes

February 27, 2023

Agenda

Agenda Topics	Moderator	Minutes
Adopt the minutes of the January 23, 2023 call	Frédéric	5
Marketing manager transition	Hassan	5
Embedded World 2023	Frédéric	10
Future of the IoT and Edge Computing ecosystem	Frédéric	30

Present

Robert Andres — Eurotech
Frédéric Desbiens — Eclipse Foundation
Hassan Jaber — Eclipse Foundation
Kai Hudalla — Bosch
Jens Reimann — Red Hat
Jeffrey Osier-Mixon — Red Hat

Absent

Caroline Buck — Bosch
Marco Carrer — Eurotech

1. Adopt the minutes of the January 28, 2023 call

The committee approved the minutes unanimously.

2. Marketing manager transition

Hassan Jaber announced to the committee that he decided to leave the Eclipse Foundation to pursue another career opportunity. Clark Roundy will take over for the time being.

The members of the committee thanked Hassan for his service and wished him well in his new endeavours.

3. Embedded World 2023

Frédéric Desbiens provided to the committee a detailed overview of the Eclipse Foundation's presence at Embedded World 2023. The conference will take place on March 14-16 in Nürnberg, Germany.

The Eclipse Foundation booth is shared with OpenHW Group and contains a number of pods for demonstrations. One of those pods will be dedicated to Eclipse IoT, while another one will showcase the Sparkplug working group. ZettaScale, a member of the Eclipse IoT and Edge Native working groups, participates as well and will show the Eclipse Cyclone DDS and Eclipse zenoh projects in action.

Frédéric Desbiens will also deliver a presentation on Sparkplug on March 16. This presentation ends by presenting the broader Eclipse IoT and Edge ecosystem.

4. Future of the IoT and Edge Computing ecosystem

Frédéric Desbiens informed the committee that the Edge Native steering committee is willing to implement the plan that would see their working group become a special interest group under Eclipse IoT.

For the time being, the Sparkplug working group will stay as a standalone working group.

Frédéric Desbiens will work with Sharon Corbett on implementing the structural changes in the upcoming months. He hopes the changes will be effective by June 2023.
