

# IoT Steering Committee Minutes

November 25, 2024

## Agenda

| Agenda Topics                                                   | Moderator | Minutes |
|-----------------------------------------------------------------|-----------|---------|
| Adopt the <a href="#">minutes</a> of the October 28, 2024, call | Frédéric  | 5       |
| 2025 Eclipse IoT Working Group Budget                           | Frédéric  | 10      |
| VOTE: 2025 Eclipse IoT Working Group Budget                     | Frédéric  | 5       |
| Marketing update                                                | Amin      | 10      |
| Upcoming open source projects                                   | Frédéric  | 15      |

## Present

Robert Andres — Eurotech  
Frédéric Desbiens — Eclipse Foundation  
Jeffrey Osier-Mixon — Red Hat

## Absent

Dr. Guru Prasad — Bosch  
Phani Gangula — ZettaScale

### 1. Adopt the minutes of the October 28, 2024, call

The committee adopted the minutes unanimously.

### 2. 2025 Eclipse IoT Working Group Budget

Frédéric Desbiens presented the 2025 budget proposal provided by the Eclipse finance team. The line items are the same used in the 2024 version. The expected revenue is lower than last year, since Red Hat decided to downgrade their membership from leader to innovator in 2025.

### 3. VOTE: 2025 Eclipse IoT Working Group Budget

Frédéric Desbiens stated that he would organise an electronic ballot since not all delegates

could join the call.

**4. Marketing update**

Amin Rasti delivered the marketing update. The 2024 IoT and Edge developer survey report will be published in early December.

**5. Upcoming open source projects**

Frédéric Desbiens shared with the committee the details of two projects that will likely be contributed to the Eclipse Foundation soon. One is an open edge platform for lightweight IoT devices and the other is related to renewable energy management.
