Absent

Jeffrey Osier-Mixon — Red Hat
Dr. Guru Prasad — Bosch

1. Adopt the minutes of the January 27, 2025, call

The minutes were approved unanimously.

2. Working Group new scope and brand

The steering committee started a discussion on a new name and scope for the working group as highlighted in its 2025 program plan.

Before the discussion started, Amin Rasti presented a slide deck highlighting marketplace trends around concepts such as IoT, Edge Computing, and Embedded.

The members of the committee then discussed the contents of the presentation, before considering name and scope proposals for the working group from various participants.

The discussion was inconclusive. The delegates agreed to continue it at the next meeting.
