Any other business	All	5

Present

Thea Aldrich — Eclipse Foundation
Robert Andres — Eurotech
Frédéric Desbiens — Eclipse Foundation
Phani Gangula — ZettaScale
Jeffrey Osier-Mixon — Red Hat
Dr. Guru Prasad — Bosch

1. **Adopt the minutes of the July 28, 2025, call**
   The minutes were approved unanimously.

2. **Marketing update**
   Thea Aldrich updated the committee on upcoming marketing activities. The highlights include a booth at The Things Conference in Amsterdam, Netherlands (September 23-24), and the SDV hackathon in Porto, Portugal (September 30-October 2). Both events will provide opportunities to highlight the breadth and depth of the Eclipse IoT toolkit to developer audiences.

   Thea invited interested committee members to contact her about Open Community Experience (OCX)

3. **Upcoming changes to the Working Group process**
    Frédéric Desbiens shared with the committee the details of an [email from Sharon Corbett](#) regarding upcoming changes to the Eclipse Foundation Working Group Process. Some working groups with fees still in US dollars will be invited to convert their fees to euros. Information sessions about the changes will take place on October 8 and 10, 2025. Frédéric invited the delegates to join one of the sessions.

    The Eclipse IoT membership fees are already in euros, so the steering committee will not need to take action on this matter.

4. **2026 Eclipse IoT Program Plan**
    Frédéric Desbiens moderated a discussion around the draft 2026 program plan. The delegates proposed significant additions and improvements. However, it was not possible to conclude the discussion during the meeting. Work on the draft will continue at the next meeting.
